Testimonials

"Deimar: I want you to know I love working with you; you're always on point and very responsive and high-level thinking."
~ **Schon Tepler Partners**, Real Estate & Construction (US).

"I highly recommend Deimar for any role requiring in-depth analysis, machine learning techniques, and presentation skills. Deimar has demonstrated not only his expertise in analyzing data but also his ability to support crafting compelling presentation decks. His versatility in applying machine learning techniques and seamlessly integrating analytical findings into presentations is commendable. Deimar would be a valuable asset to any team or project that requires a strong analytical mindset and the ability to communicate complex information effectively."
~ **Daniel Carceles**, Business Services (AU).

"Outstanding professionalism in financing and very easy to work with. I highly recommend for all financial management projects."
~ **Kipax**, Business Services (FI).

"Deimar was an amazing contractor who went above and beyond to assist, we will definitely hire him again in the near future."
~ **Quantum University**, Education (US).

"Deimar was great, super organized and willing to work with you to get the job done. Thank you!"
~ **Functional Patterns**, Business Services (US).

About Me

I am a financial professional with +8 years of experience leading finance processes across diverse industries. I have a proven track record of successfully expanding the operations of foreign-owned startups to other countries. My expertise lies in building finance processes from scratch and developing robust budgetary and financial planning processes:

+ 10 years of global financial management experience in more than 15 countries, including the Real Estate, Software, and Mining industries.

+ 8 years working with startups including clients like Schon Tepler Group, Hybrid, Emerald, and more.

+ \$300M underwritten investments in Real Estate multifamily projects in the US (AZ, CA, FL, and TX).

+ \$1.3B execution supervision as a Contract Administrator and Project Cost Controller for mining projects.
